## Public Notice

=====

**NSE Lonestar, LLC** has submitted Water Well Drilling/Operating Permits for three (3) water wells in Freestone County. The location of the proposed well field is on 1,424 acres known as "Outlaw Ranch" approximately 3.50 miles north of Fairfield. The beneficial use of this groundwater is for an aquaculture system on a proposed salmon farm. Produced water will then be used by the landowner for irrigation. Production is from the Hooper layer of the Wilcox Aquifer at a proposed depth of 350 feet. The proposed production rate for each well is 316.67 gallons per minute. The total aggregate annual production limit for this permit is 1,534.44 acre-feet for all wells. The General manager has determined that the applications are administratively complete and is recommending approval of this permitted withdrawal of groundwater.

This Water Well Drilling/Operating Permit Applications will be considered by the Board of Directors of the Mid-East Texas Groundwater Conservation District at a Regular Meeting to be held on **Tuesday, August 27, 2019 at 6:00 PM at the Freestone County Courthouse, County Courtroom in Fairfield, Texas**. This meeting is open to the public and anyone wishing to make comments regarding the Water Well Drilling/Operating Permits may do so at a time designated by the Board of Directors.

Comments or information regarding this permit application may be made by contacting the Mid-East Texas Groundwater Conservation District at 936-348-3212 or by email at david\_metgcd@att.net.
